

ENVIRONMENTAL POLICY

RG Mekaniska AB operates in the local and regional market with products within sheet metal and welded steel constructions. We work for a better environment by continuously evaluating our activities based on their environmental impact.

Our environmental impact mainly consists of:

- Energy consumption
- Metal consumption
- Transportation

We strive to:

- Challenge our own operations, customers, and suppliers to continuously improve the environmental impact of our products and processes.
- Promote personal responsibility through education and active participation.
- Comply with laws, regulations, directives, and other environmental requirements within our field of operations.
- Work to reduce and prevent pollution as well as economize raw materials and energy.
