

QUALITY POLICY

RG Mekaniska AB operates in the local and regional market with products within sheet metal and welded steel constructions.

In the eyes of the customer, RG Mekaniska shall be perceived as a natural partner by offering:

- Good service and promptly performed services.
- High quality in the work performed.
- Cost-effective solutions that provide good profitability for both the customer and RG.

Internal and external requirements shall be fulfilled, and the quality work shall lead to continuous improvements.

We shall provide all employees with the conditions necessary to meet established requirements and take responsibility for the quality of their own work by providing good training and maintaining a high-quality machinery.
